

Leisure Pools®

SWIMMING IN QUALITY AND STYLE®

DIY

Whilst we have an extensive dealer network, we cannot service every area. That's why Leisure Pools offers Do It Yourself Kit Pools for those homeowners and contractors who want to install the pool themselves and we do not have an established Leisure Pools dealer in the area. (If we do have an established dealer in the area then we will refer you to that dealer.)

The DIY kits include any of the pools styles and spas in any of the 4 stunning colors.

In addition to the pools we will supply:

- Installation Manual
- Dig templates
- Phone Support

To find out more, please contact us at 830.387.4020. One of our representatives will supply pricing for standard kits plus any additional equipment and work out the most efficient freight options.
