WHY BUY AN INGROUND POOL FROM LEISURE POOLS USA?

With Leisure Pools, you get experienced professionals dedicated to you and your satisfaction. A successful and rich history from the highly competitive Australian pool market has been poured into all our pool styles. Bottom line, the pool style you choose will be high quality and tested from use with thousands of satisfied pool owners.

Pools manufactured by Leisure Pools are made with the highest quality materials available in the fiberglass and coatings industries. And the process of application of the different material layers, including a steel sub-structure, ensures a rock solid base that has concrete properties, but remains flexible. This helps avoid many of the common problems that concrete pool owners experience with cracks and leaks.

In addition to a solid base, the patented Aquaguard Gelcoat gives you a smooth surface and brilliant colors. Your pool will literally "WOW" anyone who sees it and you'll avoid many problems with algae, a common problem with porous concrete pools and seams in vinyl liners.

Quality control is ensured at every step with computer controlled application, repeated ultrasonic measurements, and a supervised manufacturing environment. More than 30 years of experience in pool moving will guarantee that your pool arrives perfectly.

Installation of your pool is conducted by trained pool installers that will make adjustments according to your location and soil type. They ensure that your pool is level and at the right height during installation.

Add the coping and the landscaping, and you'll be swimming in no time. You won't have to wait months for a Leisure Pool installation. Typical installation is a few weeks, unlike a gunite (concrete) installation.

Finally, you receive a 35 Year Structural Warranty and the best surface warranty in the swimming pool industry: 15 years protection. Leisure Pools will make your pool buying experience remarkably easy. Email us today or call 830.387.4020 to speak with an inground fiberglass pools expert.

CONSIDERATIONS WHEN BUYING A FIBERGLASS POOL

Inground pools bring a great deal of enjoyment to your home. But when buying inground pools made of fiberglass, there are a number of things to consider.

Don't rush into buying your fiberglass pool. Check out our site to learn how Leisure Pools can bring more value and pleasure to your home. See additional Pdf's for categories below:
